

OCTOBER 27-30, 2004
CONGRESS CENTRE/WESTIN OTTAWA &
FAIRMONT CHATEAU LAURIER HOTELS
OTTAWA, ONTARIO CANADA

What Is It?

The ACP Annual Session is a comprehensive, clinically-oriented program for Prosthodontists, and their team, that focuses on the key issues facing contemporary prosthodontic practices. This year, the ACP has assembled an excellent program focusing on Expanding Our Horizons and Providing Better Care for Our Patients.

Who Will Be There?

More than 1,000 Prosthodontists, general dentists, specialists, laboratory technicians, auxiliary staff, students and representatives from leading exhibiting companies.

Why Should You Attend?

The ACP Annual Session provides a forum for dialogue, education, advancement and improvement of all aspects of the specialty of Prosthodontics. We offer the largest variety of prosthodontic education programs available at one event. You will receive reliable information from top-notch experts in one comprehensive, quality program.

Networking Opportunities

This year, the ACP program will feature an extensive commercial exhibition which promises enormous appeal for all attendees. Meet with representatives from key companies marketing products/services such as laboratory products and equipment, dental implants, education and research materials and practice management resources.

Continuing Education

The ACP is an ADA CERP and AGD PACE recognized provider of continuing education.

EXPANDING OUR HORIZONS: PROVIDING BETTER CARE FOR OUR PATIENTS

Expand your professional knowledge and expertise through a balanced mix of clinical lectures, educational seminars and a variety of social and networking opportunities. The program will highlight strategies for making better choices and providing better treatment for your patients.

Scientific Sessions

Featuring topics on the Evolving Standards of Care, Diagnostic Considerations in Patient Care, Surgical Considerations in Implant Care, Prosthetic Considerations and Keys to Esthetics & Materials.

Seminars & Workshops

Board Preparation Course, Writer's Workshop, Predoctoral Educators Seminar, Educators Mentoring Workshop, Classification of Prosthodontic Patients Workshop and the 2nd Annual Prosthodontic Assistant's Workshop.

Implant Surgical Training Sessions

Offering a blend of didactic and hands-on training for implant surgery. This year's courses will go beyond basics and offer expanded techniques such as site development, soft tissue management and custom abutments. Companies participating this year include: 3i, Astra Tech, BioHorizons, Nobel Biocare, Straumann, Zimmer Dental (formerly Centerpulse).

Limited Attendance Lectures

Presenting the emerging trend of dental implants including a full-day, hands-on dissection course.
